The list of stock items are classified into 3 tabs based off of their quantity, this allows for efficient stock management.

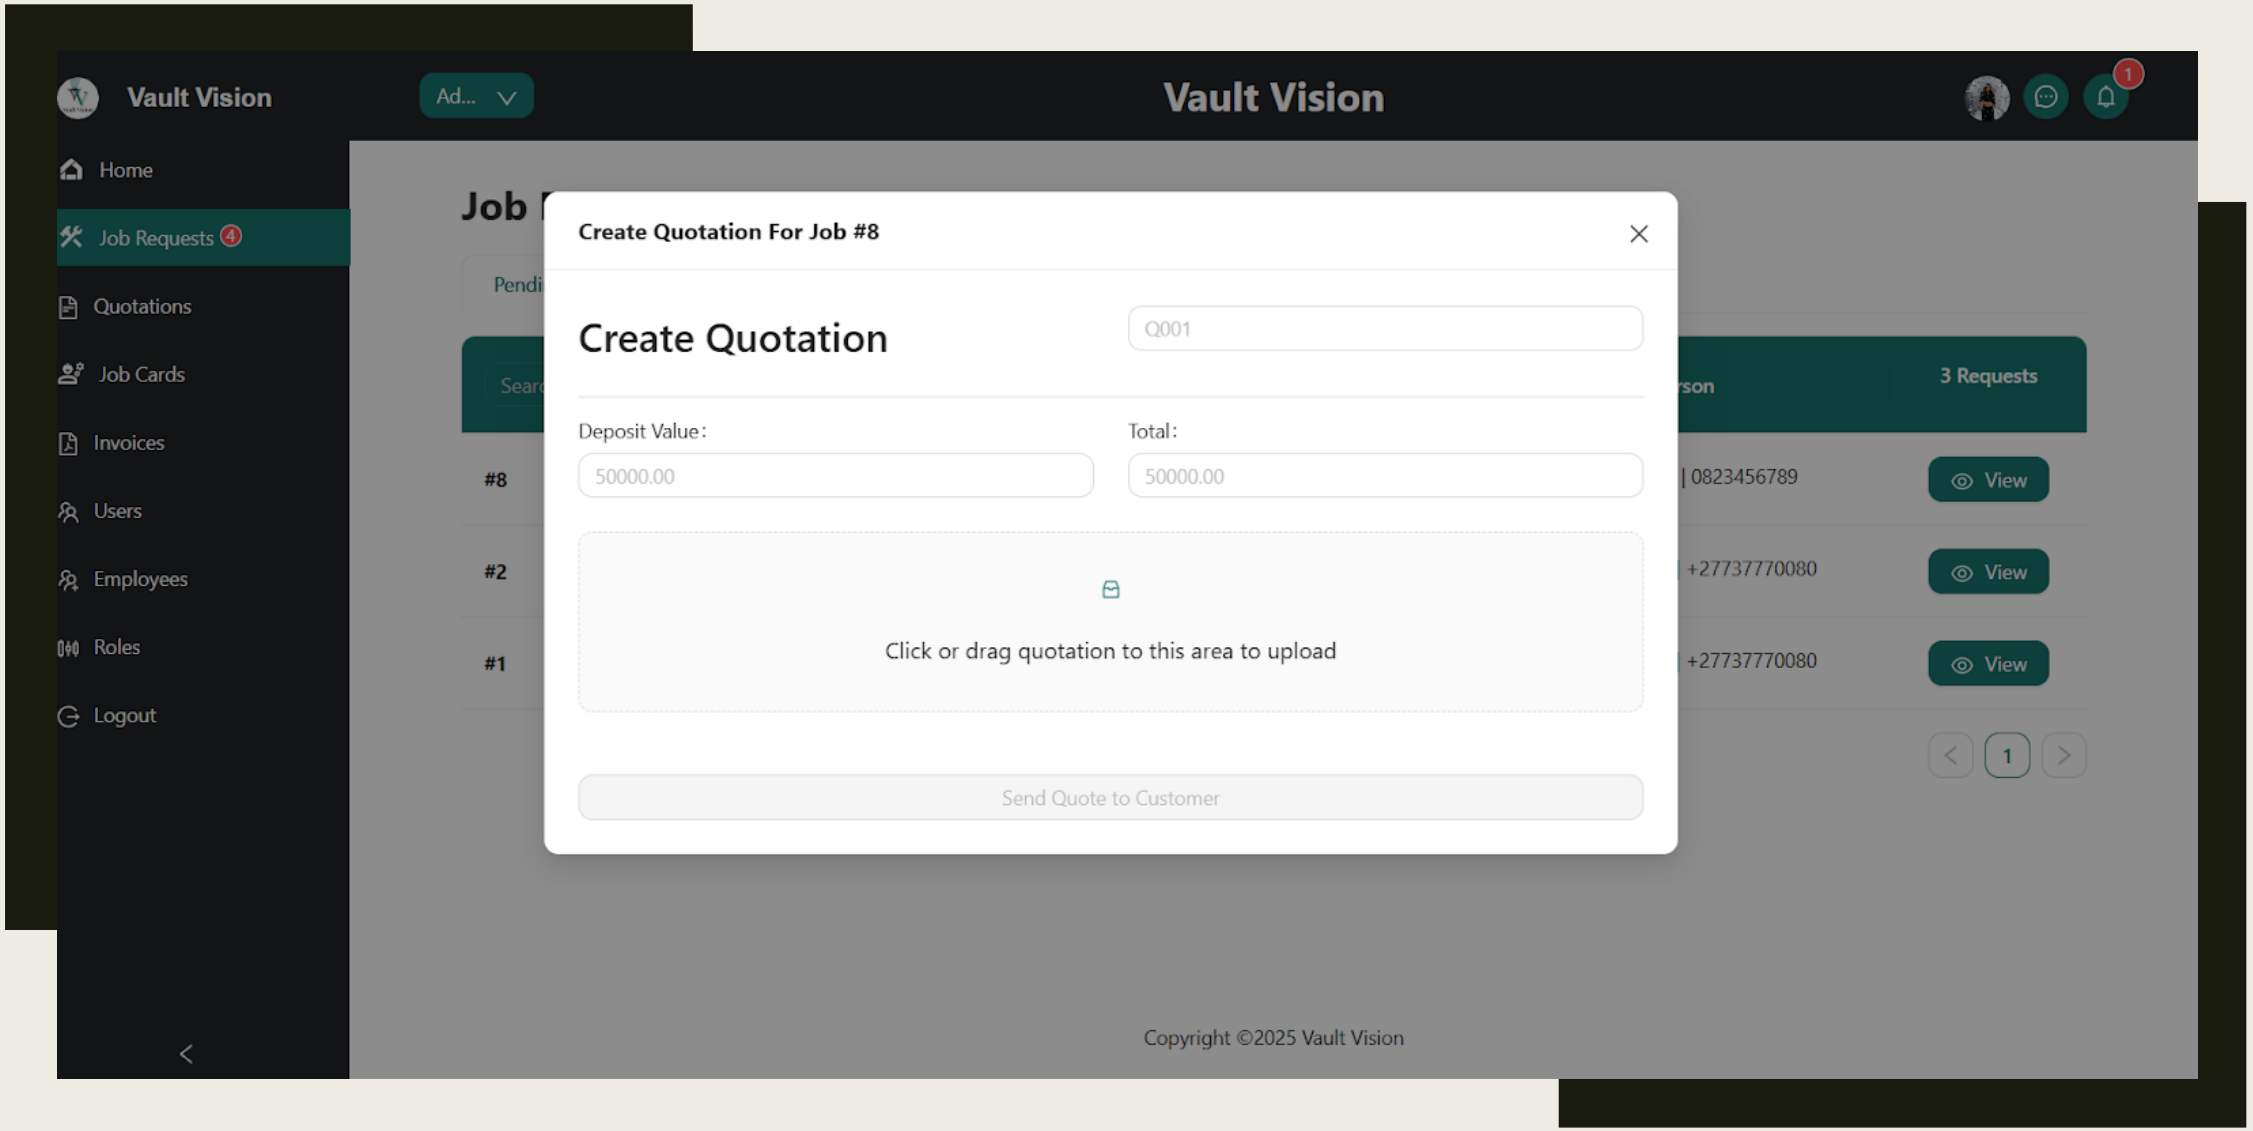

Clicking on the “View” button (button with eye icon) on any stock item from the list of stock items will provide a detailed view of the stock item as seen above.

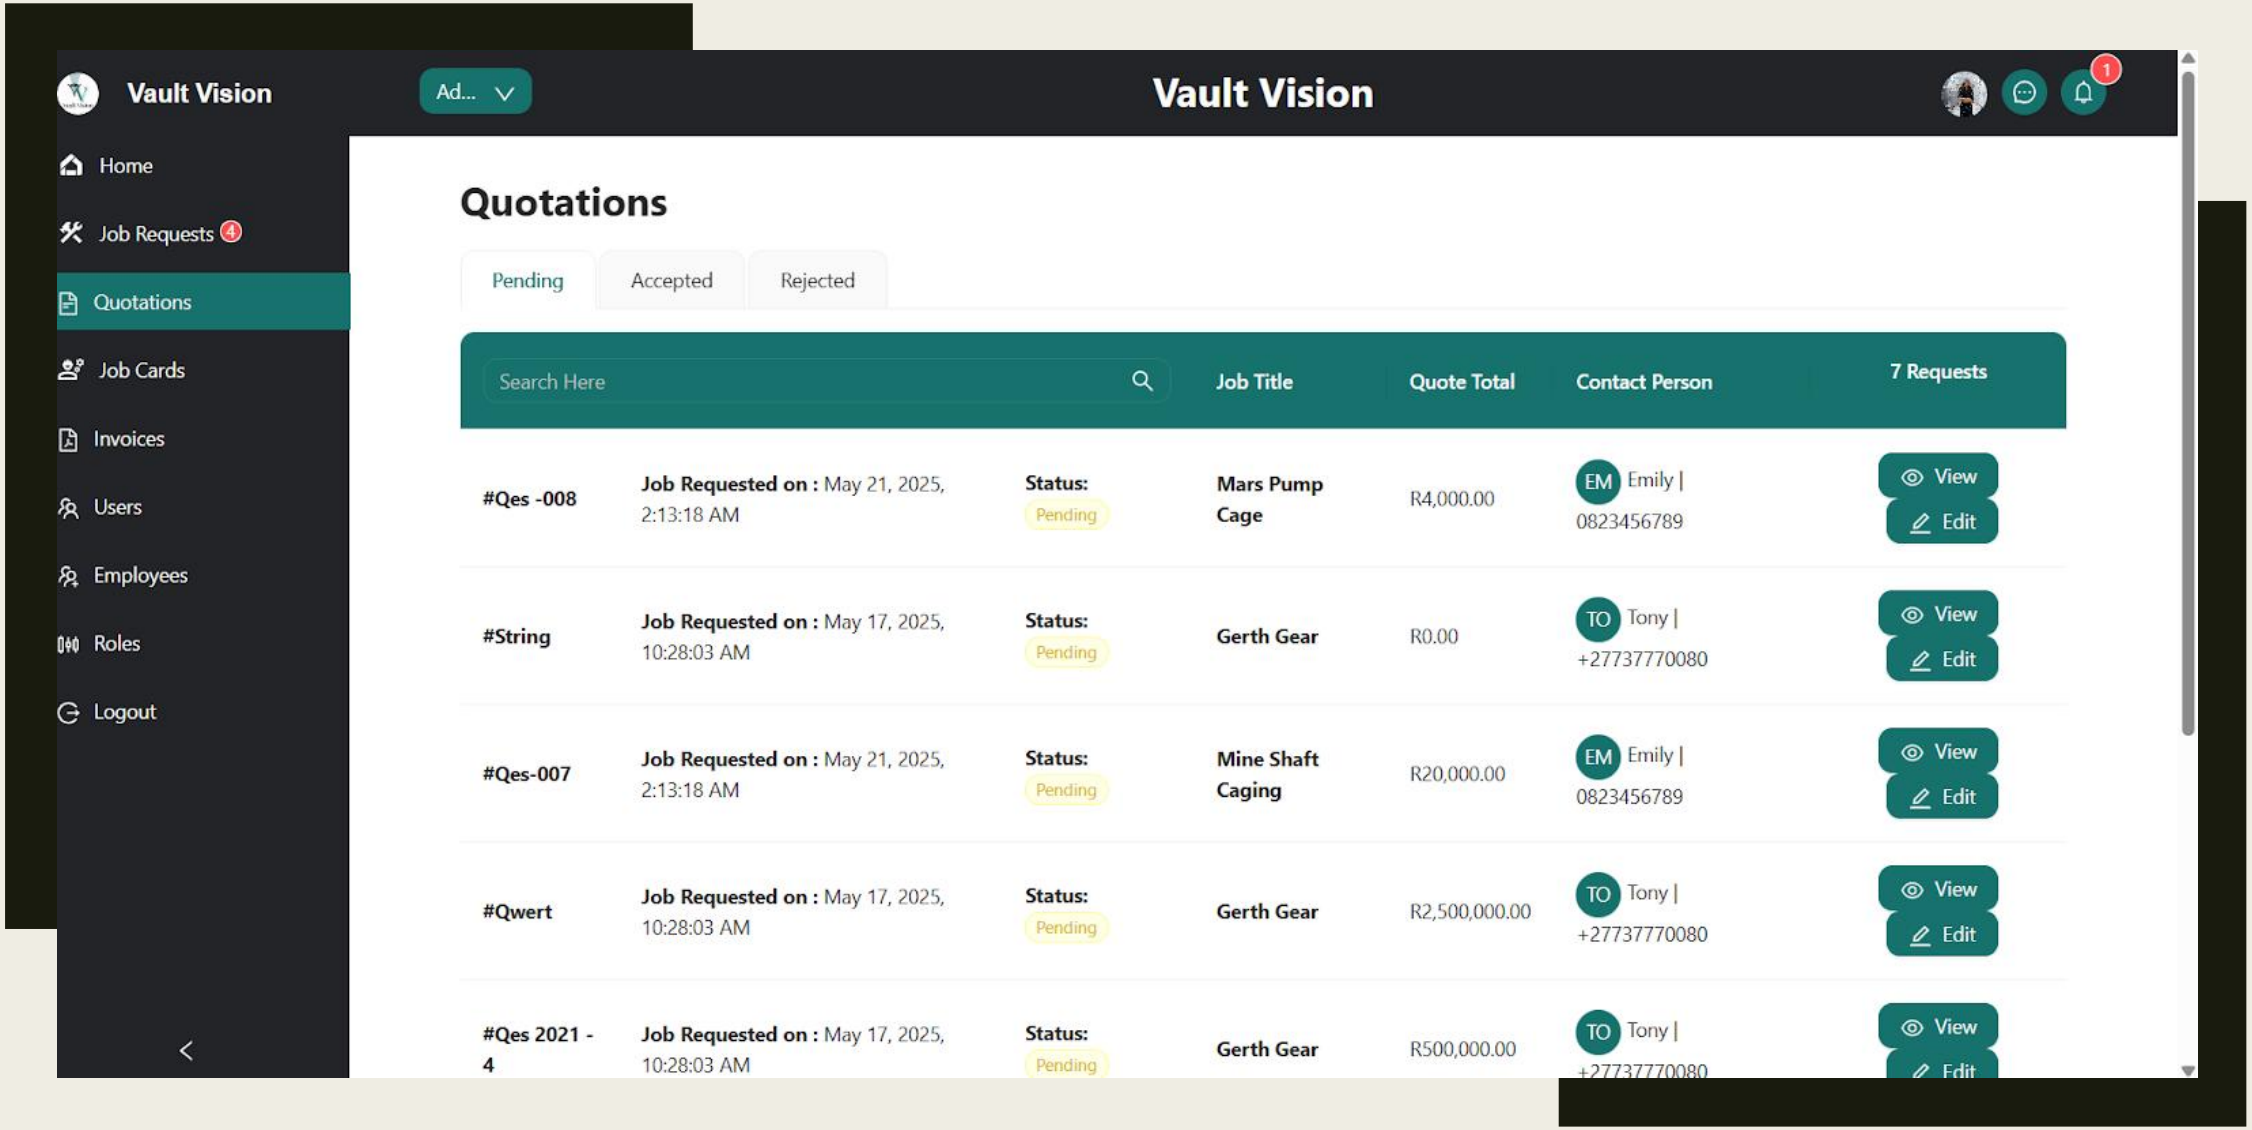

If needed, you can create a new stock item. Indicating it's stock level will automatically place this new item among one of the 3 stock level tabs.

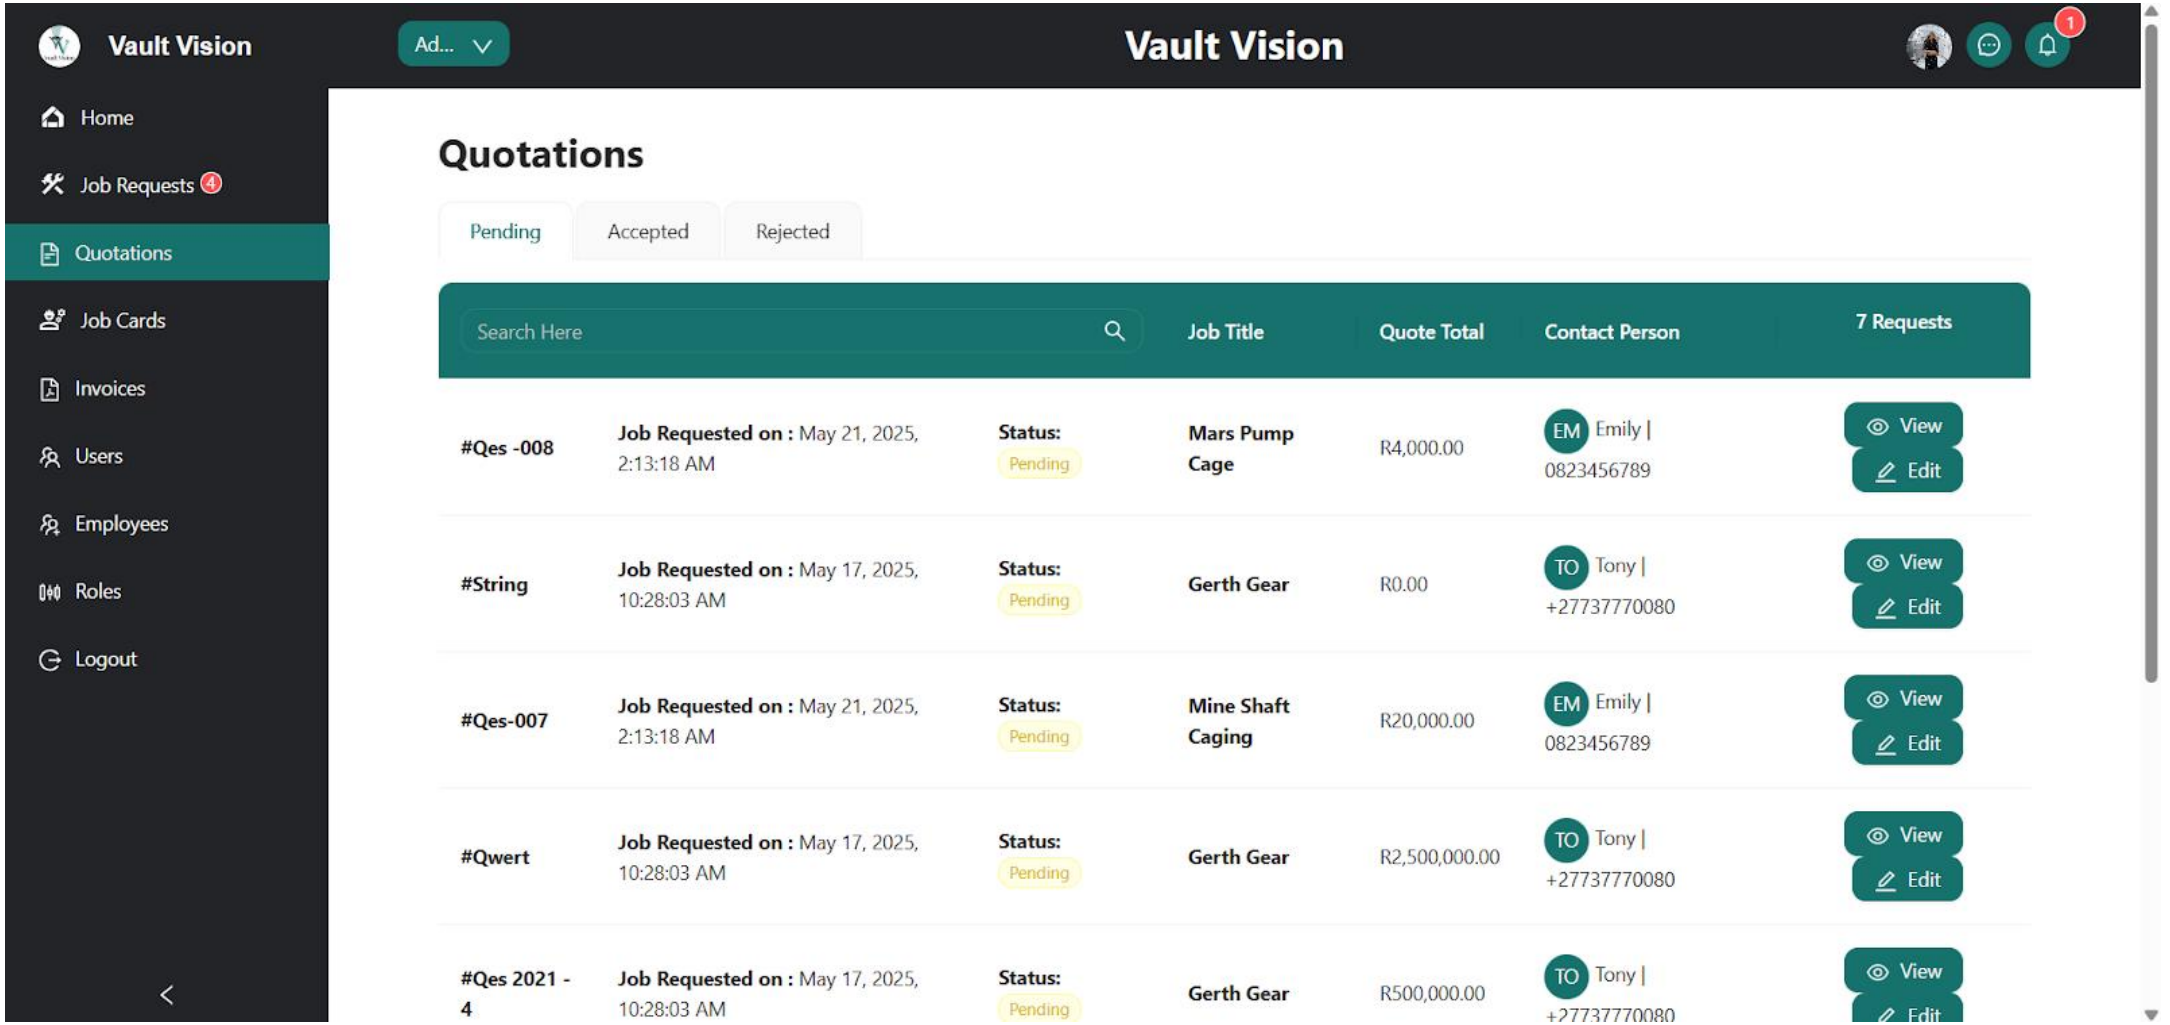

It is also possible to update the details of an existing stock item. Simply make the necessary alterations to the stock item's details and click the "Update" button to confirm all changes. Alternatively, click the "Cancel" button to revert to this stock item's initial details.

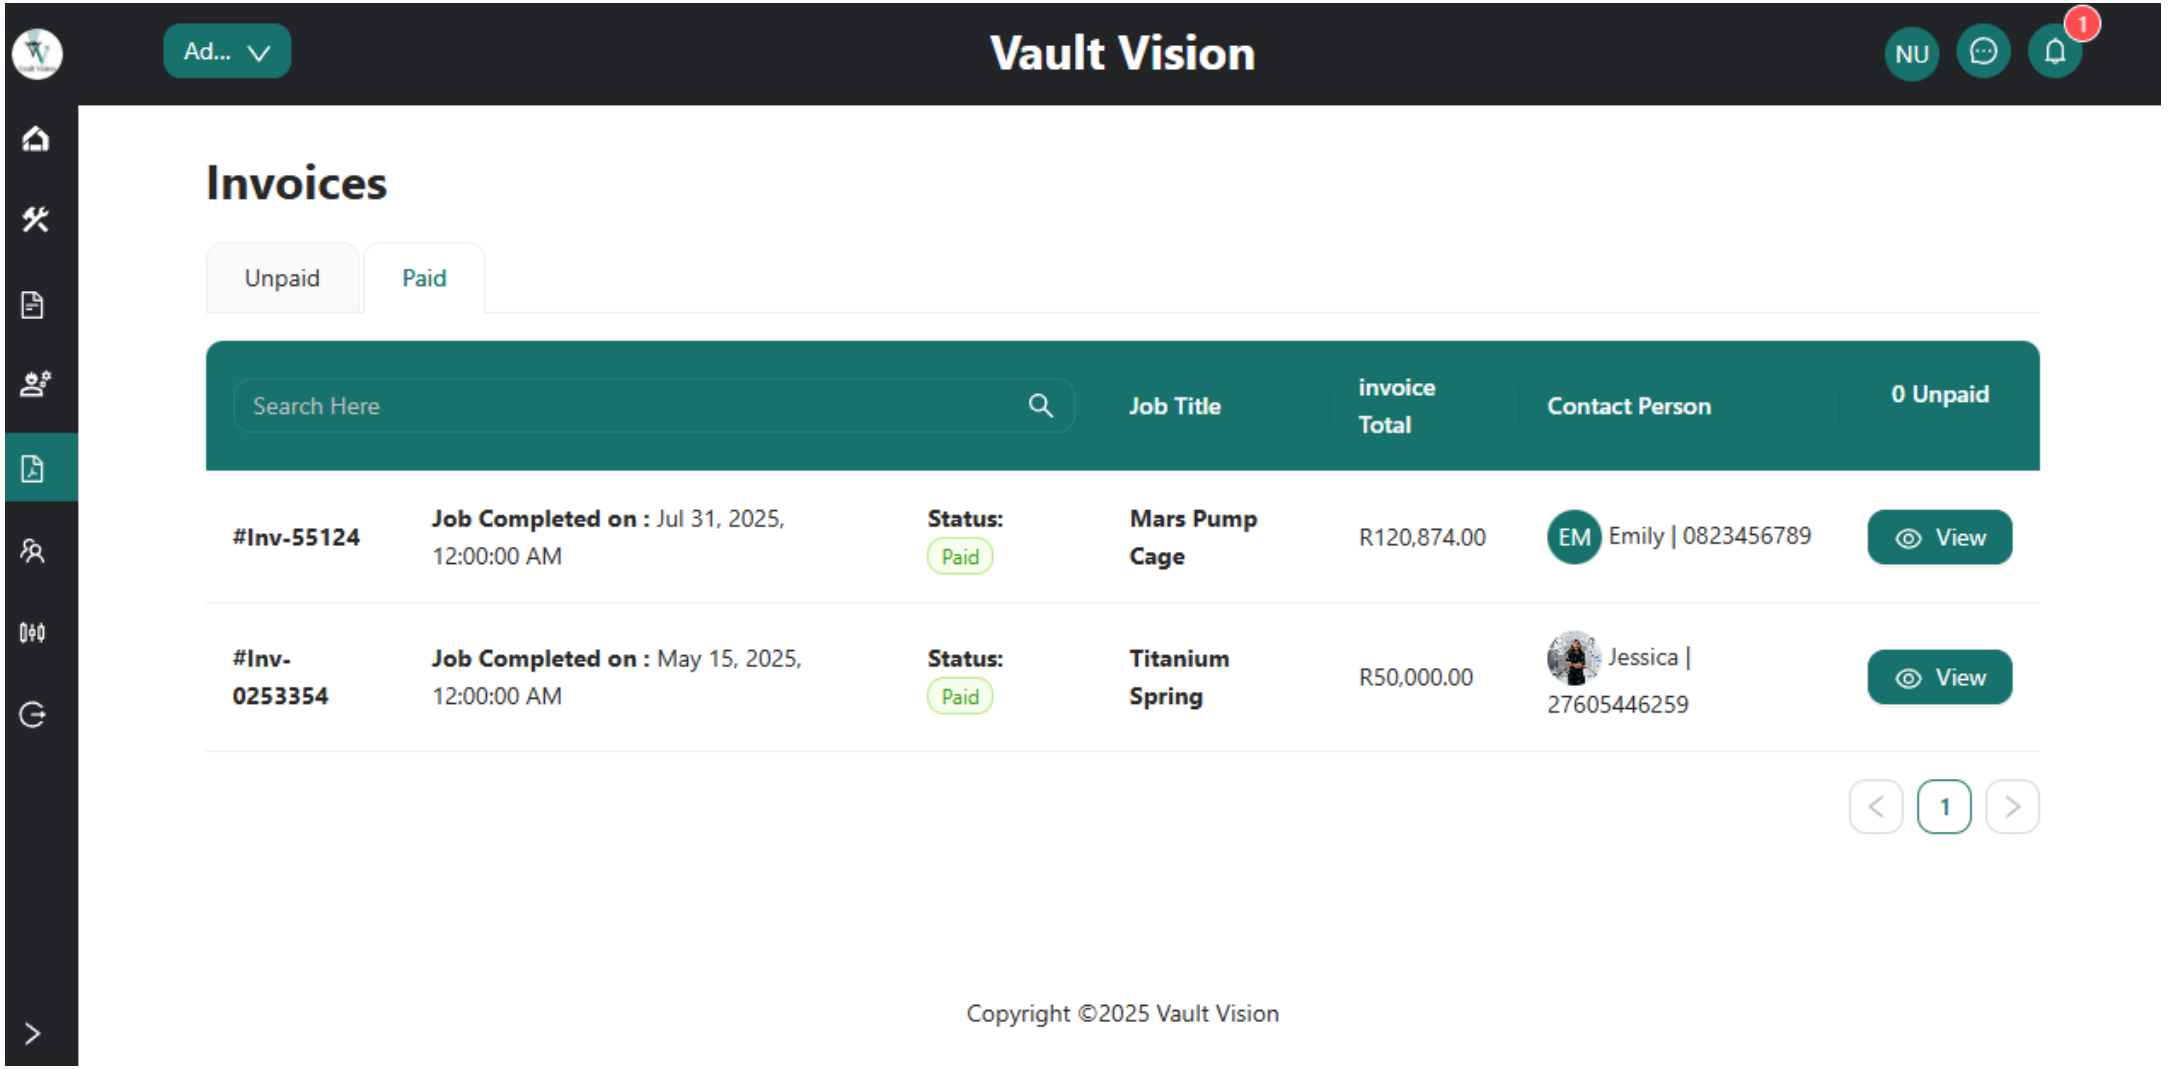

After viewing a Job Request from a Customer, you can create a tailor-made quotation by including the deposit and total values along with any additional image uploads. To confirm and finalize the quote, simply click the “Send Quote to Customer” button.

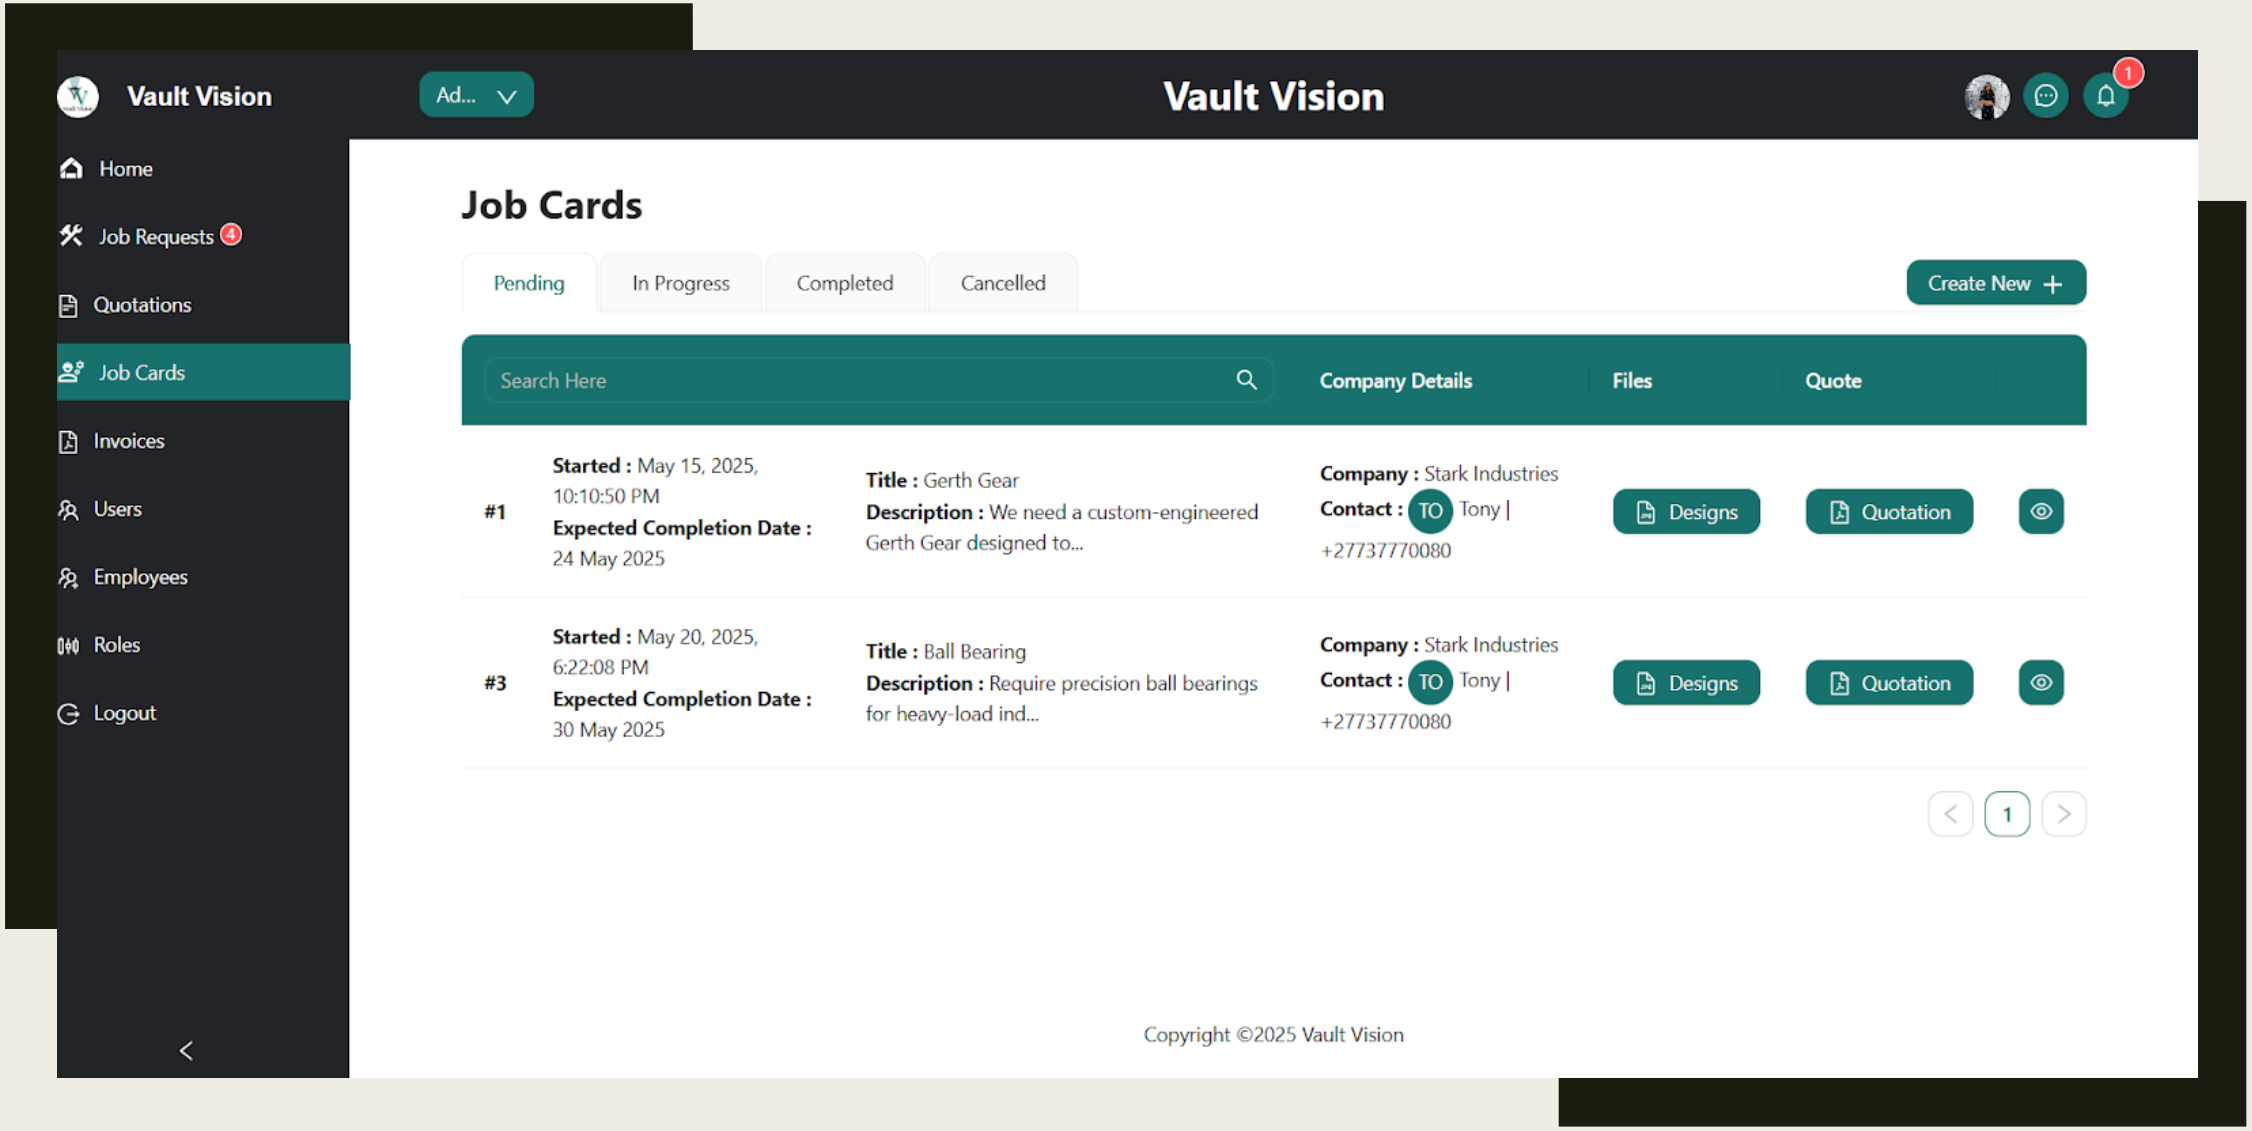

By clicking on the “Quotations” tab on the navigation bar, you can view the list of quotations for all current jobs.

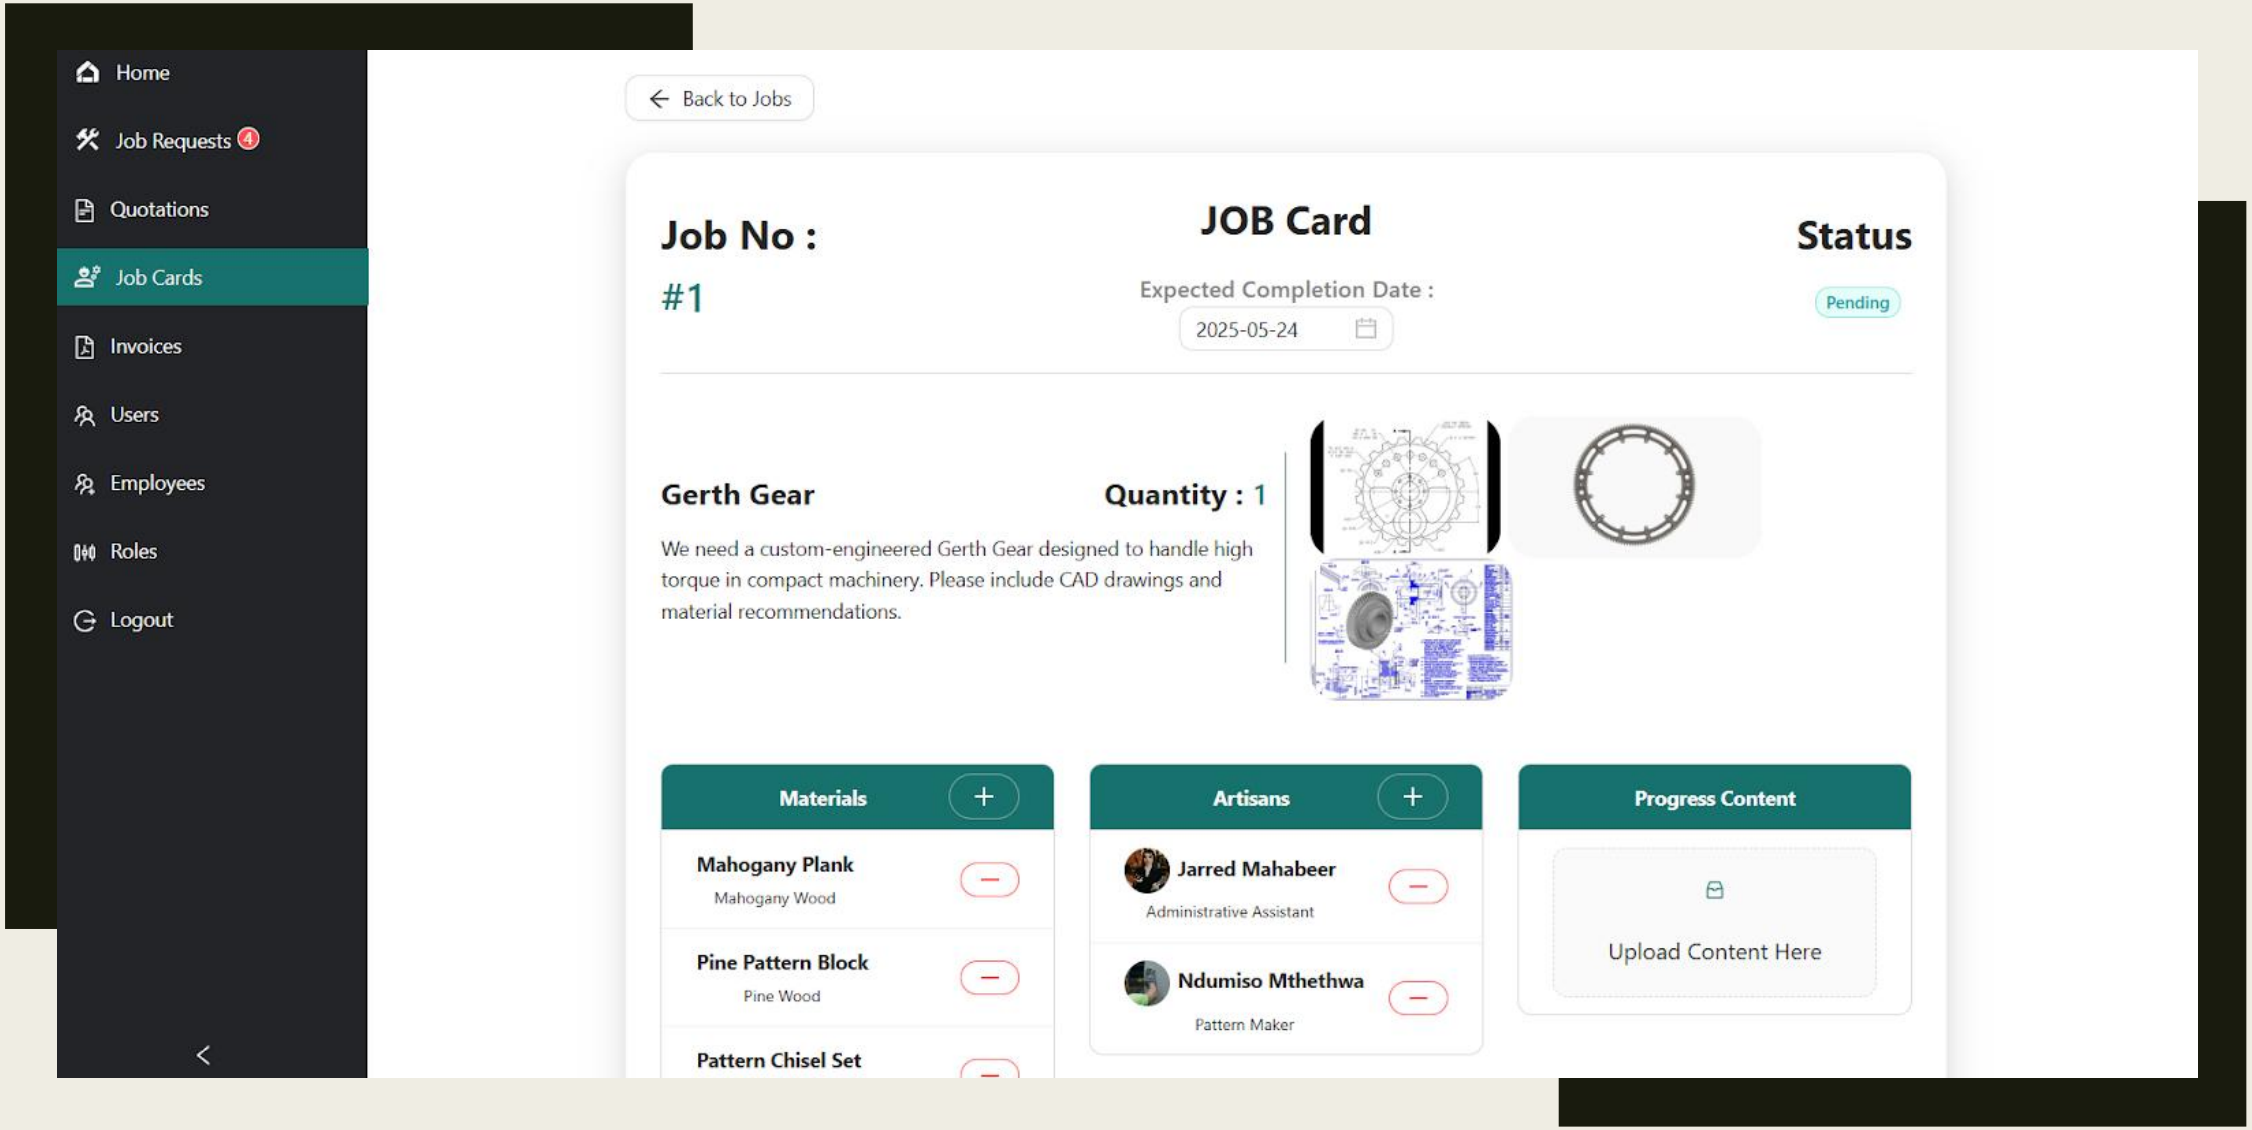

You can update the details of any quotation by simply clicking the “Edit” button.

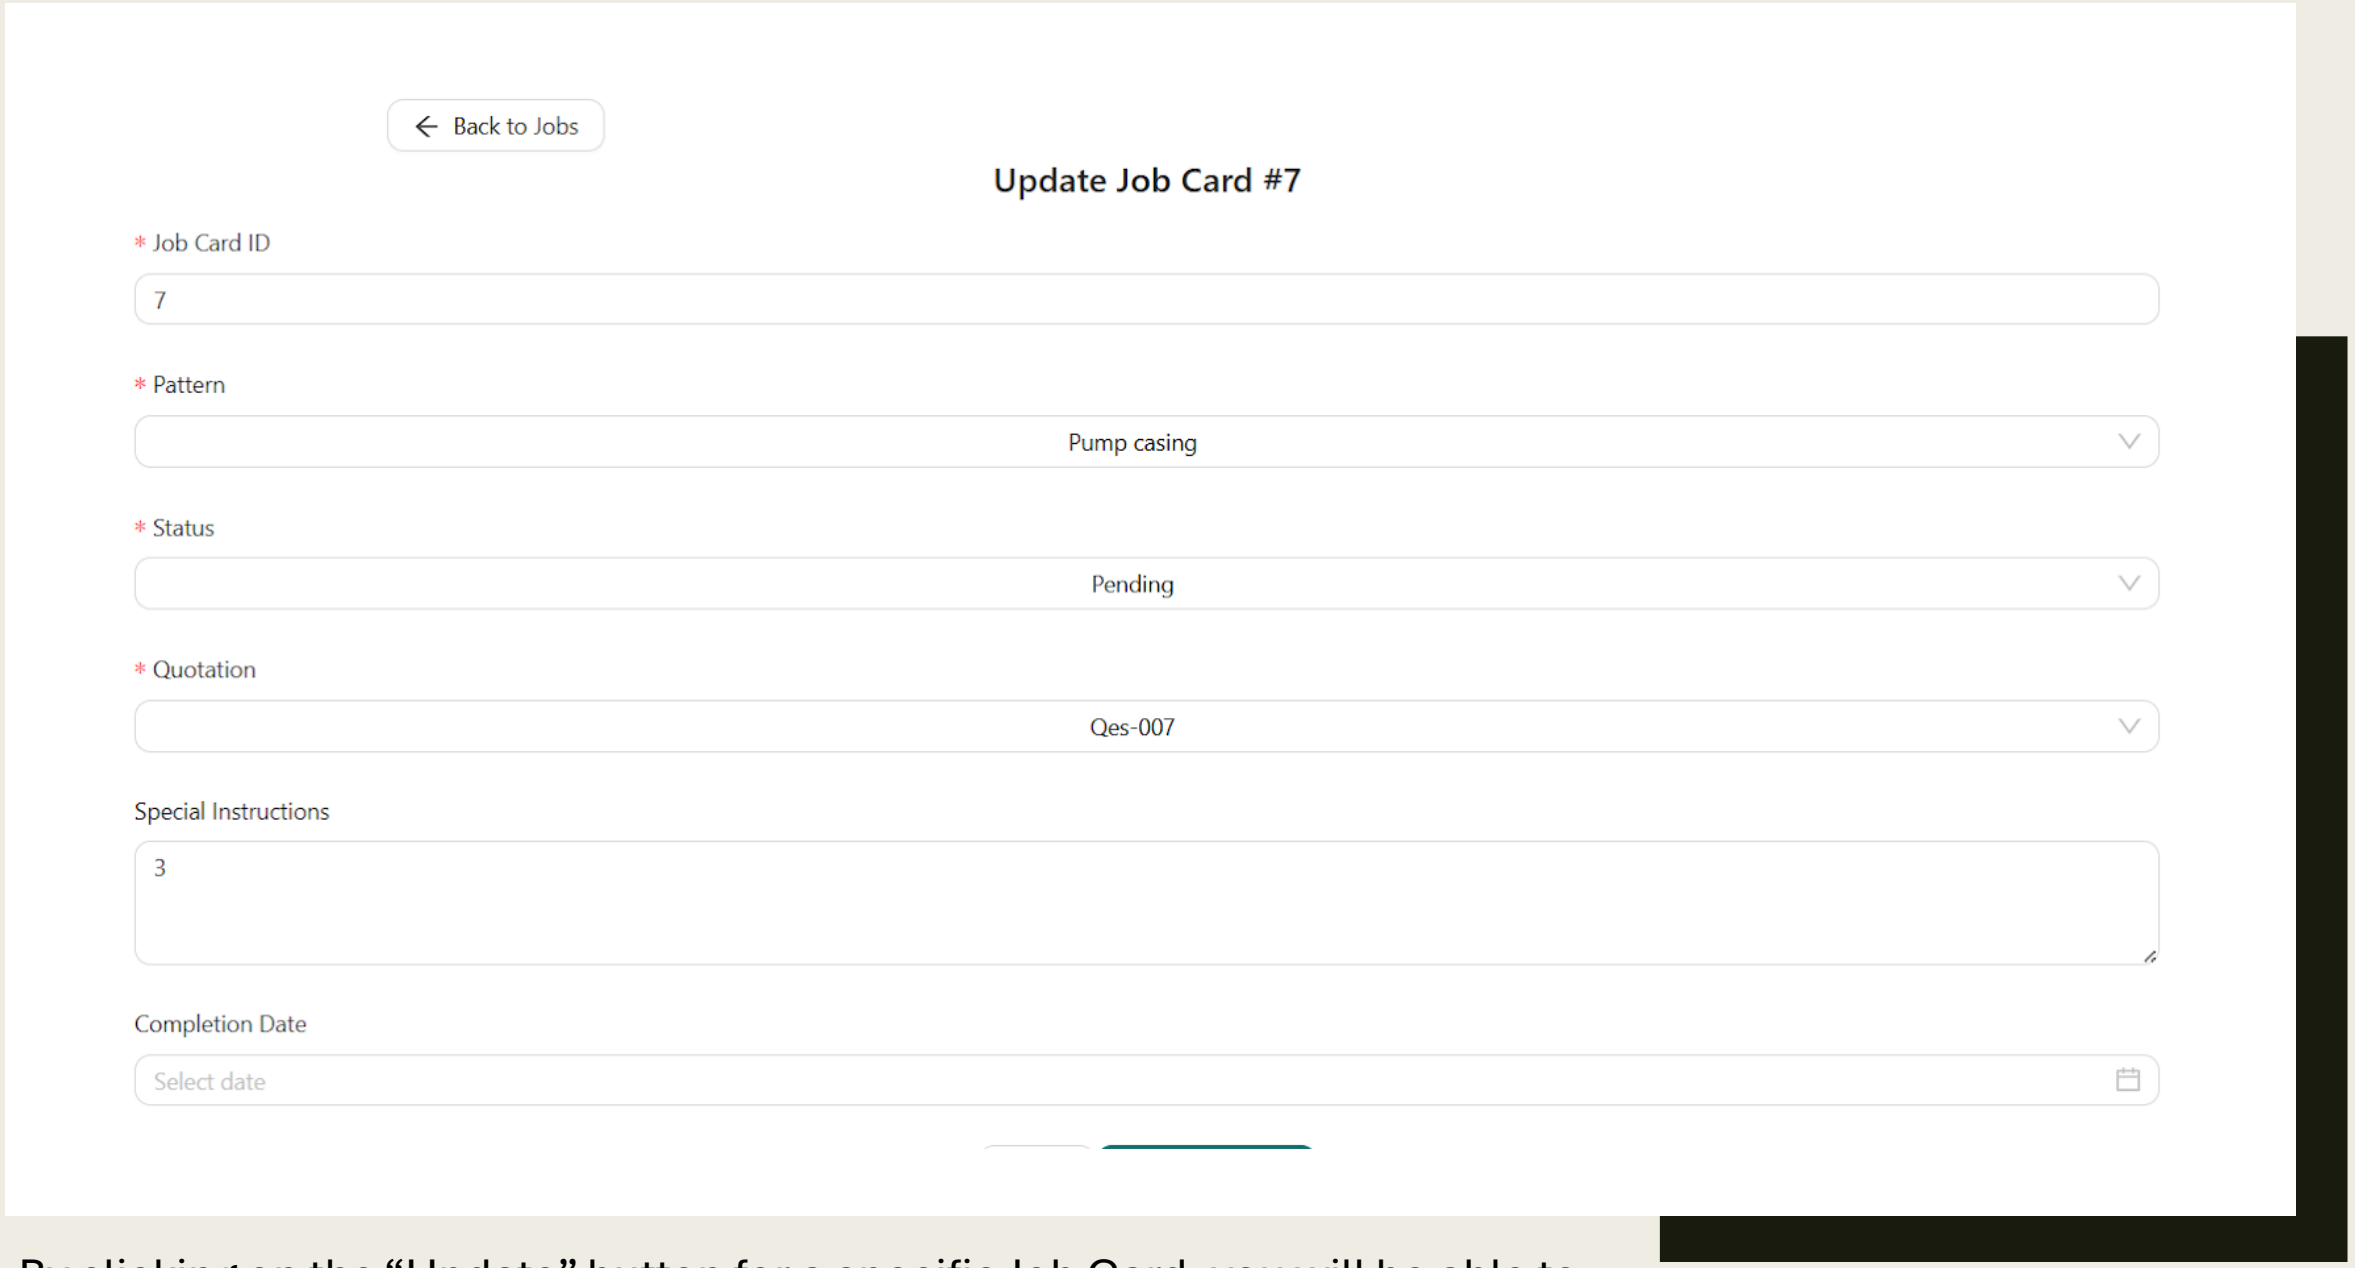

By clicking on the “Invoices” tab in the navigation bar, you can conveniently view the list of all invoices for all jobs that are paid and unpaid.

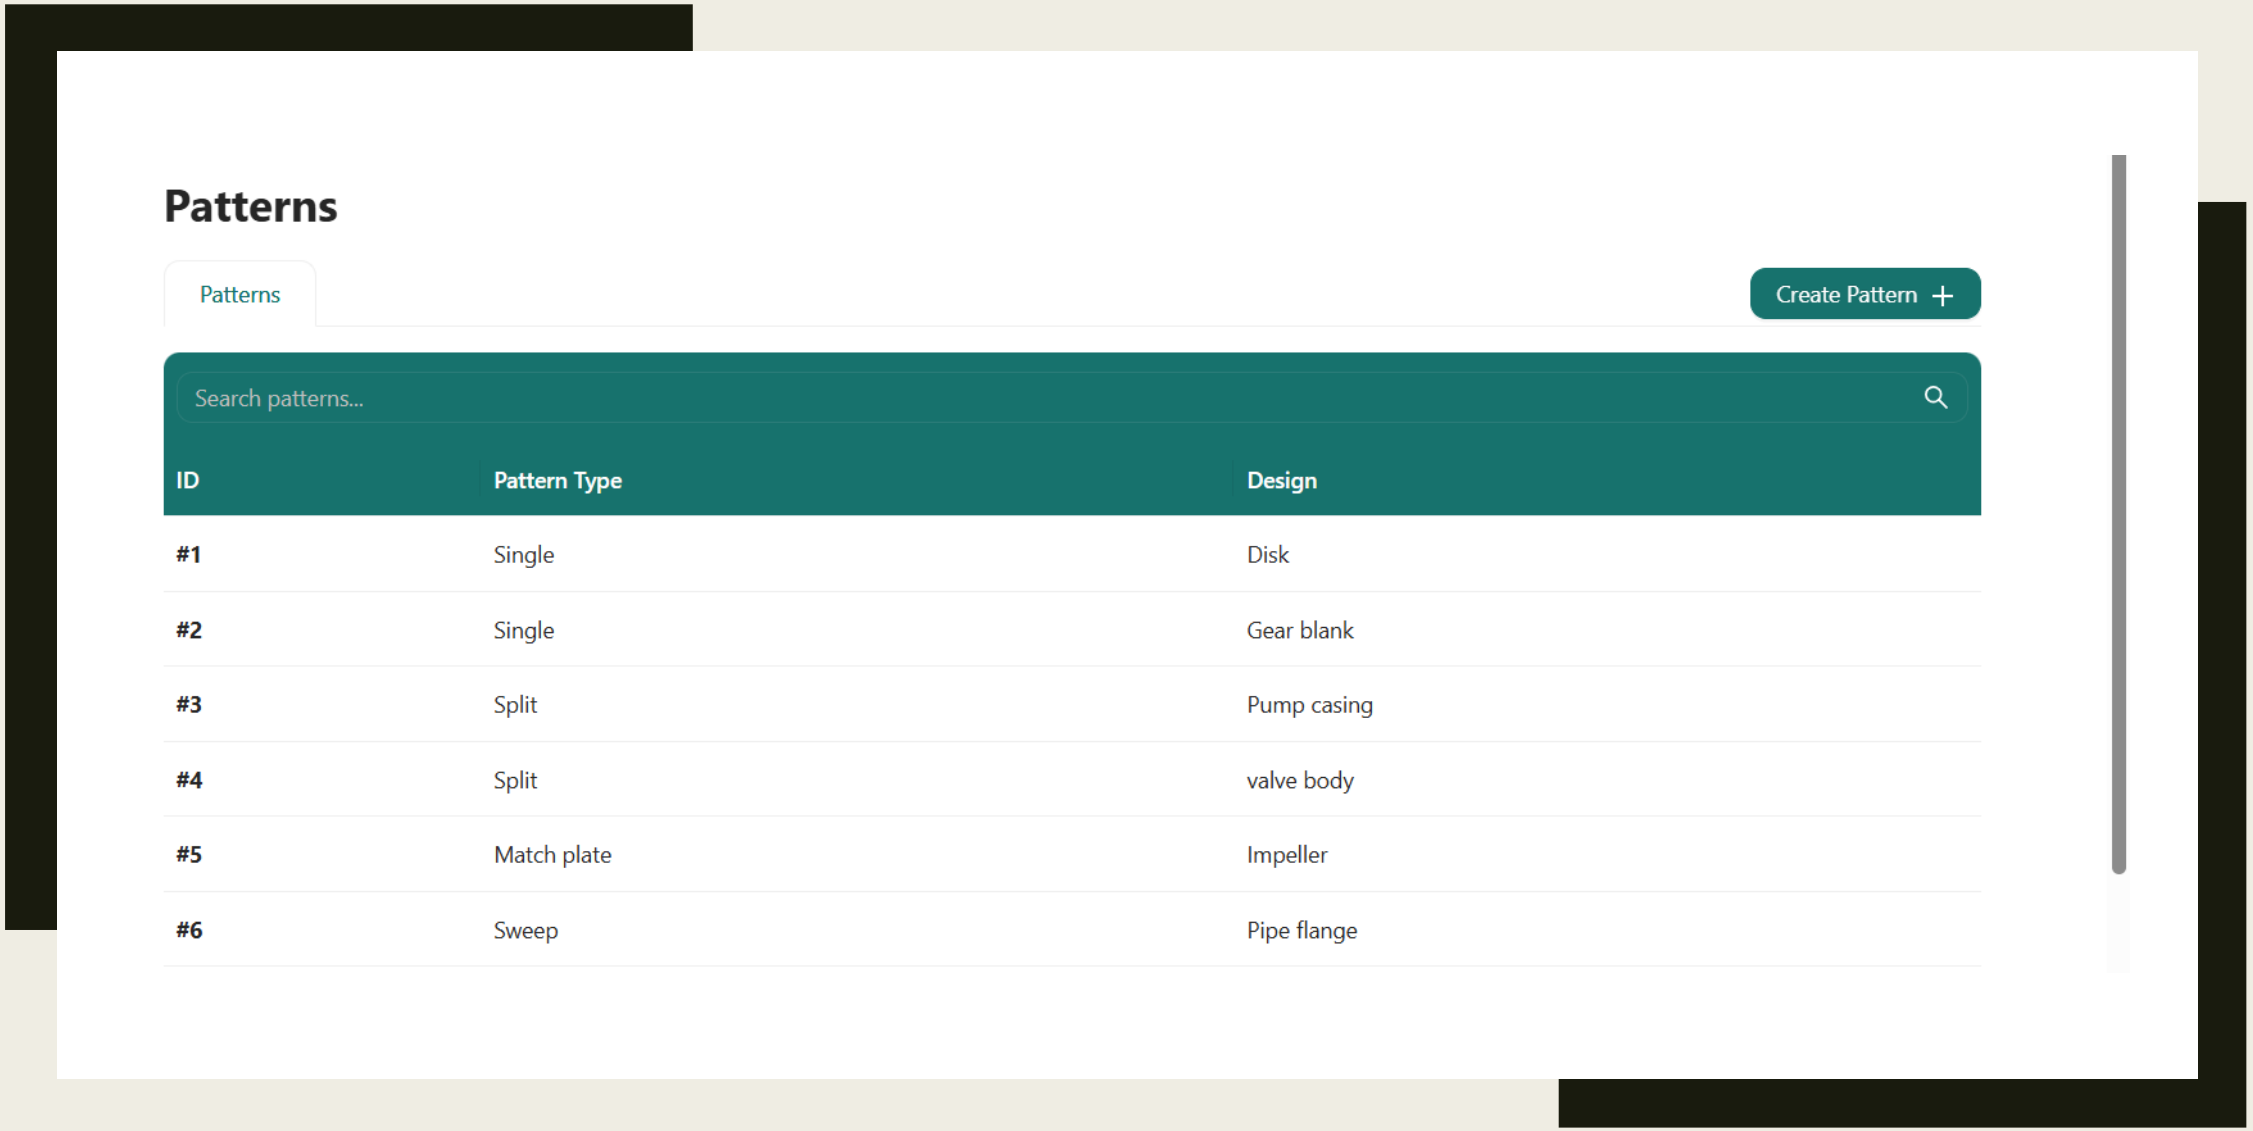

By clicking on the “Job Cards” tab on the navigation bar, you can view the list of Job Cards for all current jobs.

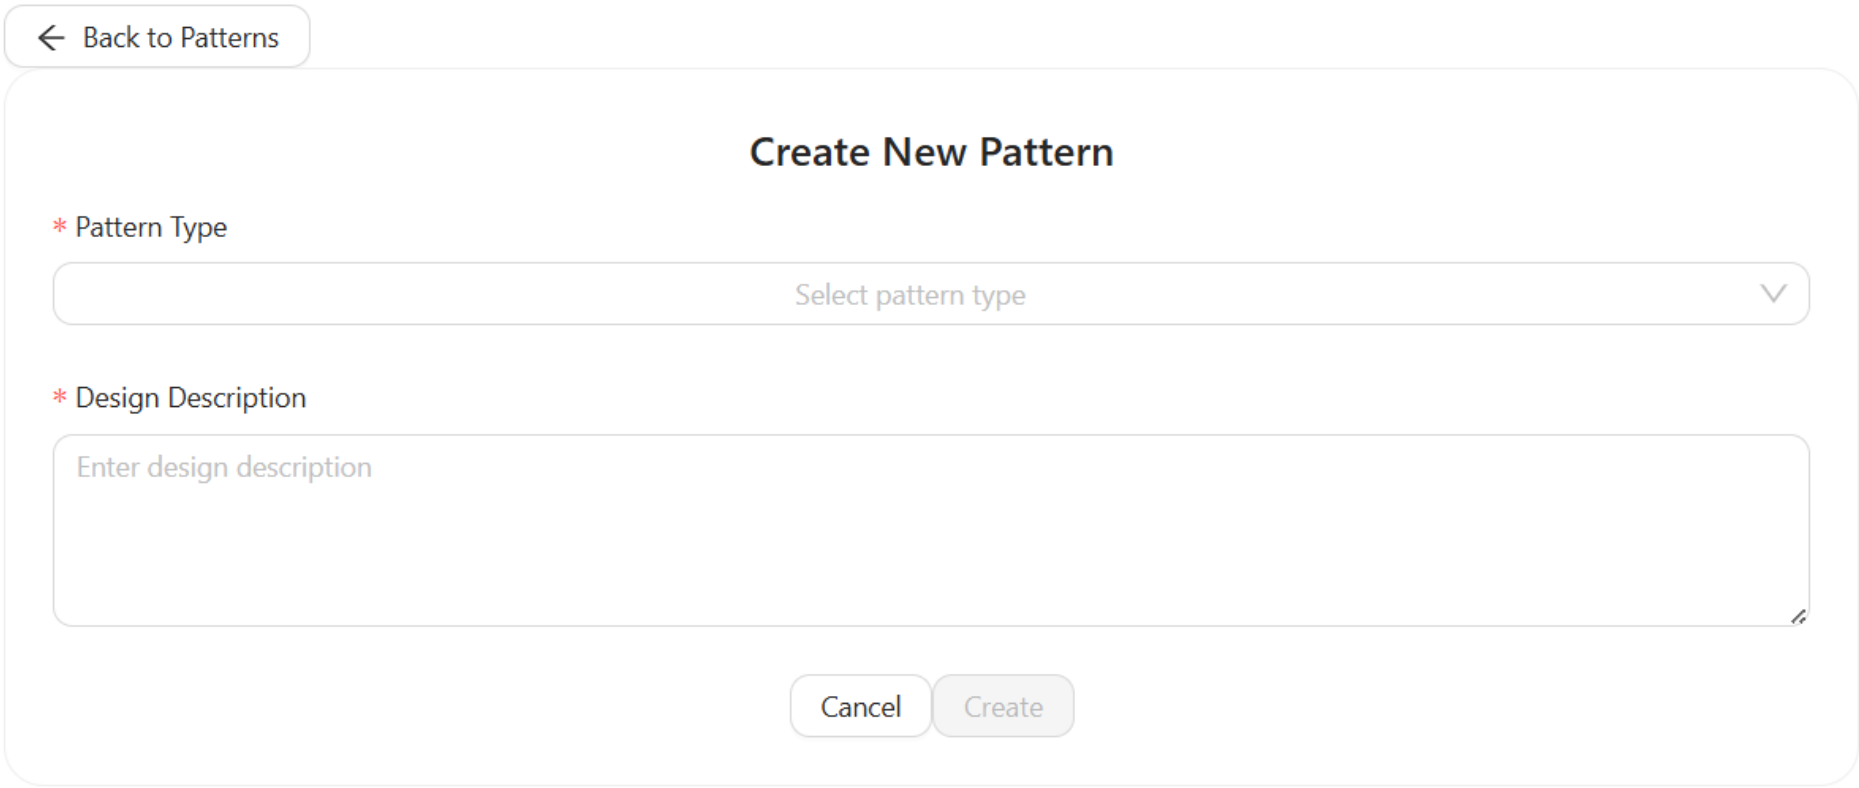

Clicking on the “View” button (button with eye icon) on any Job Card from the list of Job Cards will provide a detailed view of the Job Card as seen above.

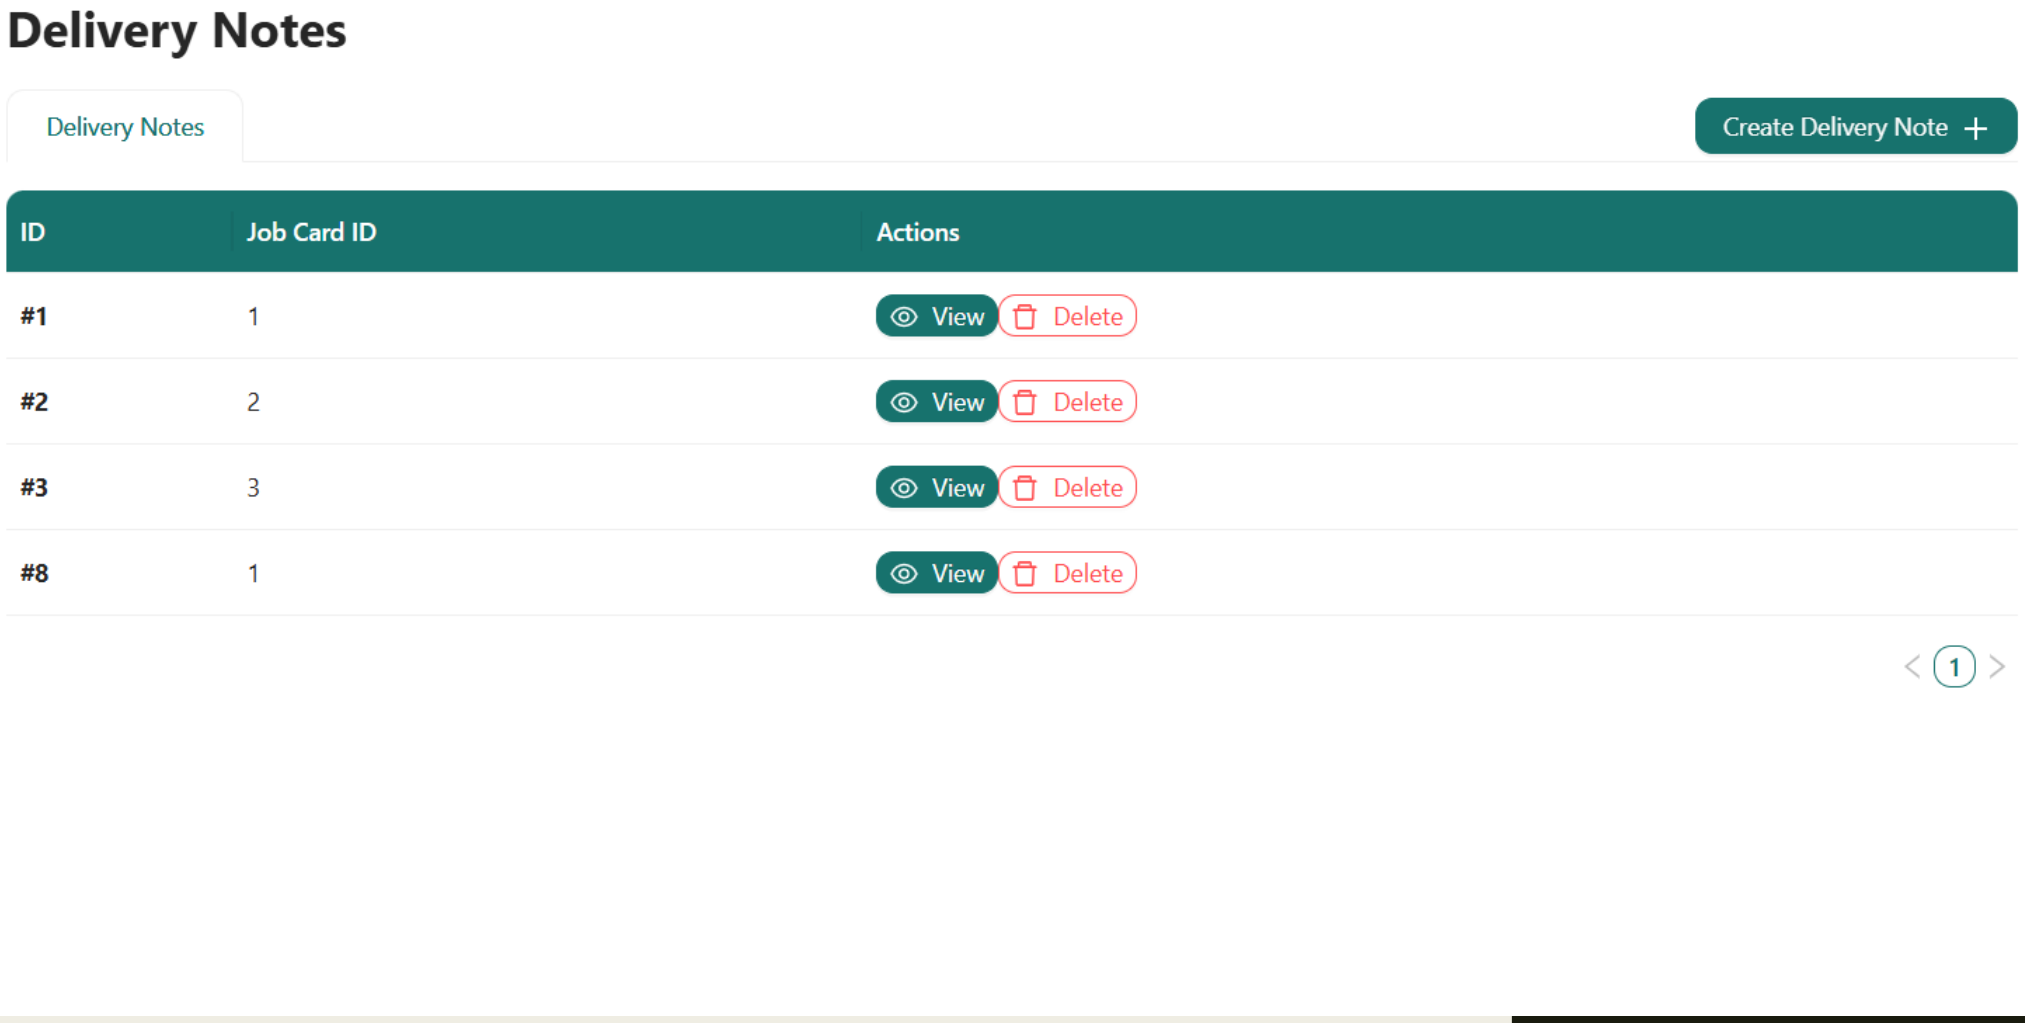

By clicking on the “Update” button for a specific Job Card, you will be able to alter any of the Job Card’s details as well as cancel it altogether if required.

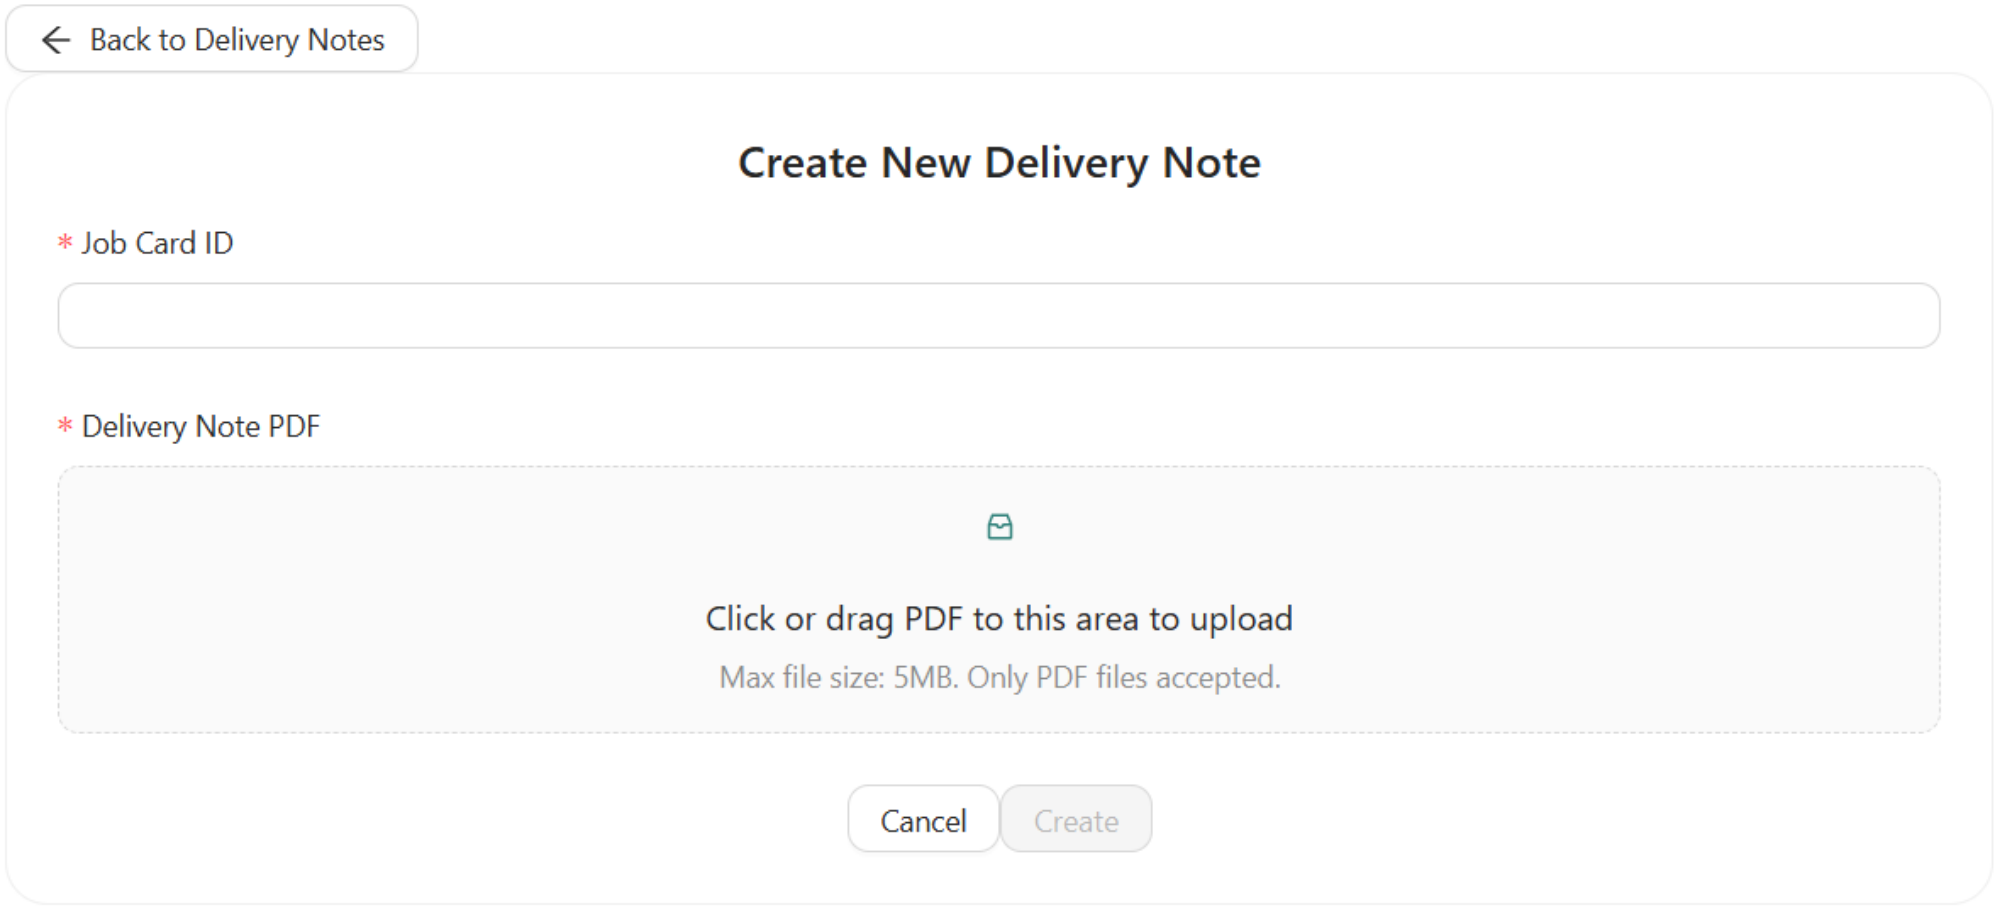

By accessing the list of Patterns, you will be presented with its ID, Type and Design.

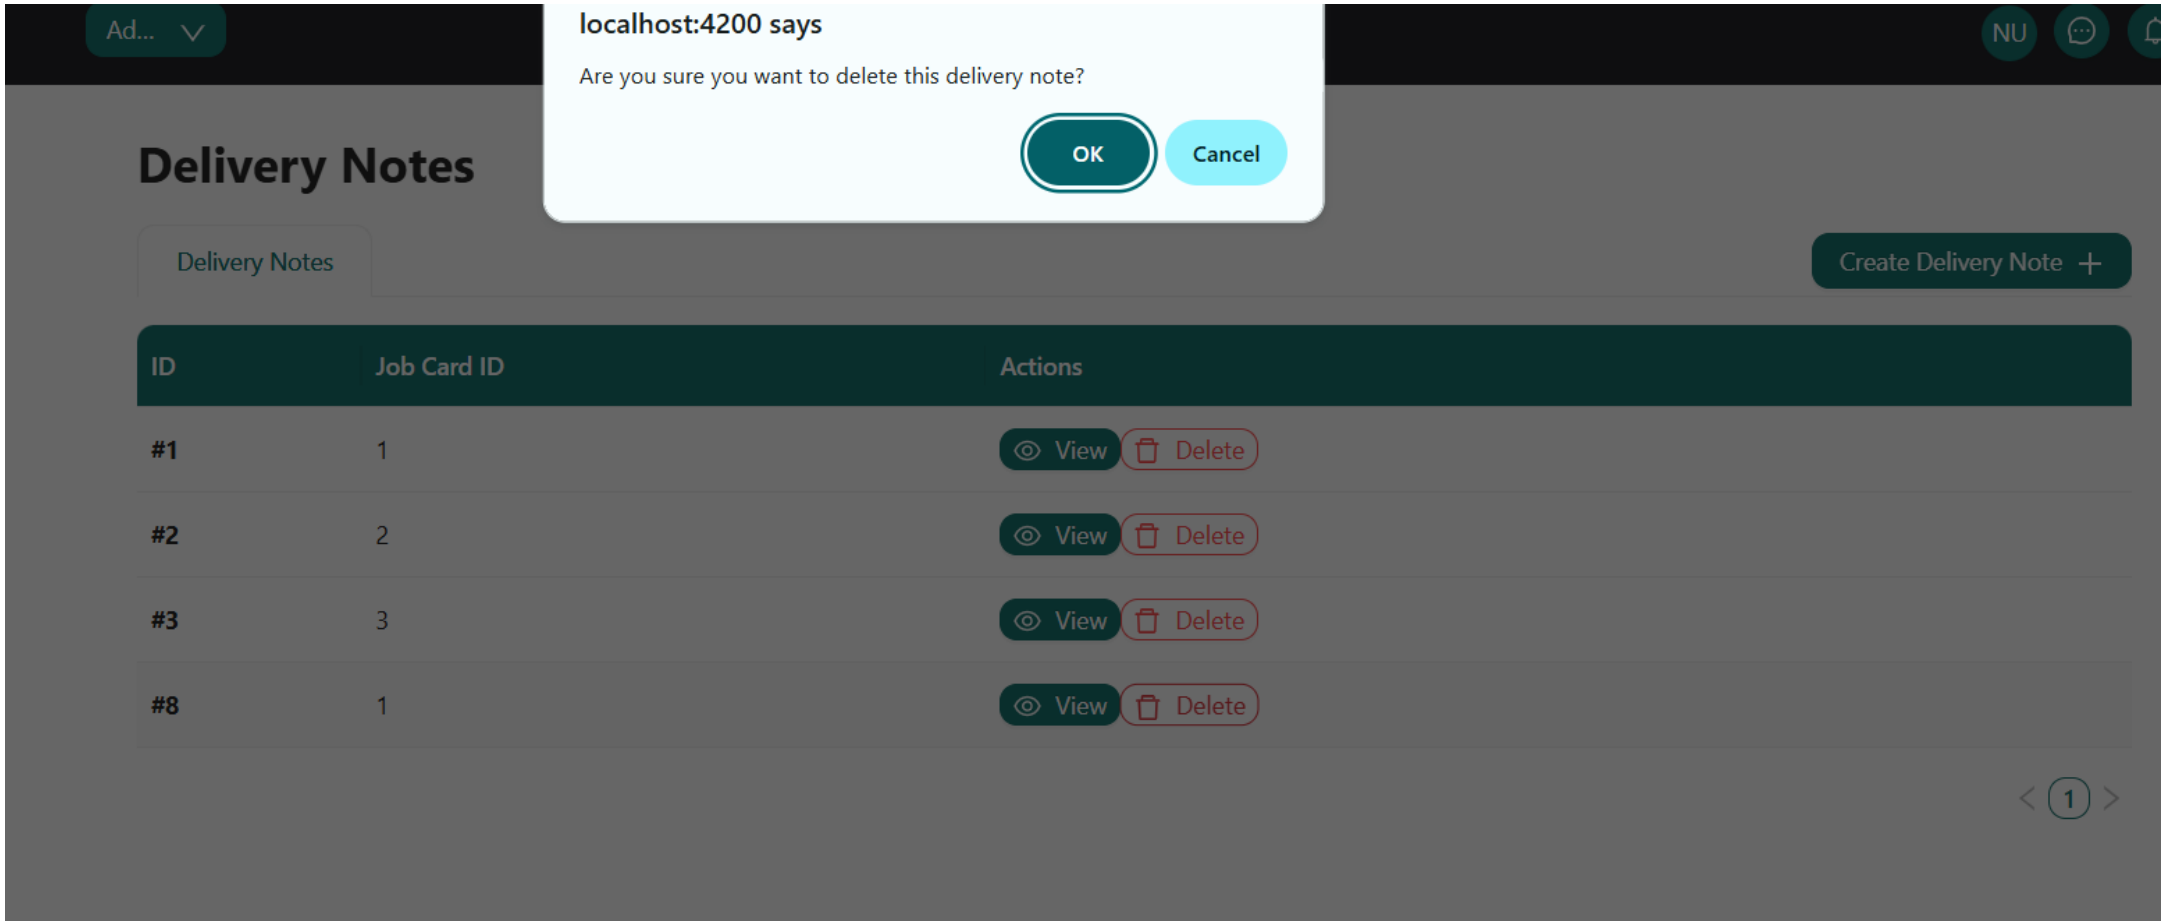

By clicking on the “Create Pattern +” button on the Pattern List page, you will be able to create a new Pattern which can be added to the existing list. Simply click the “Create” button to do so.

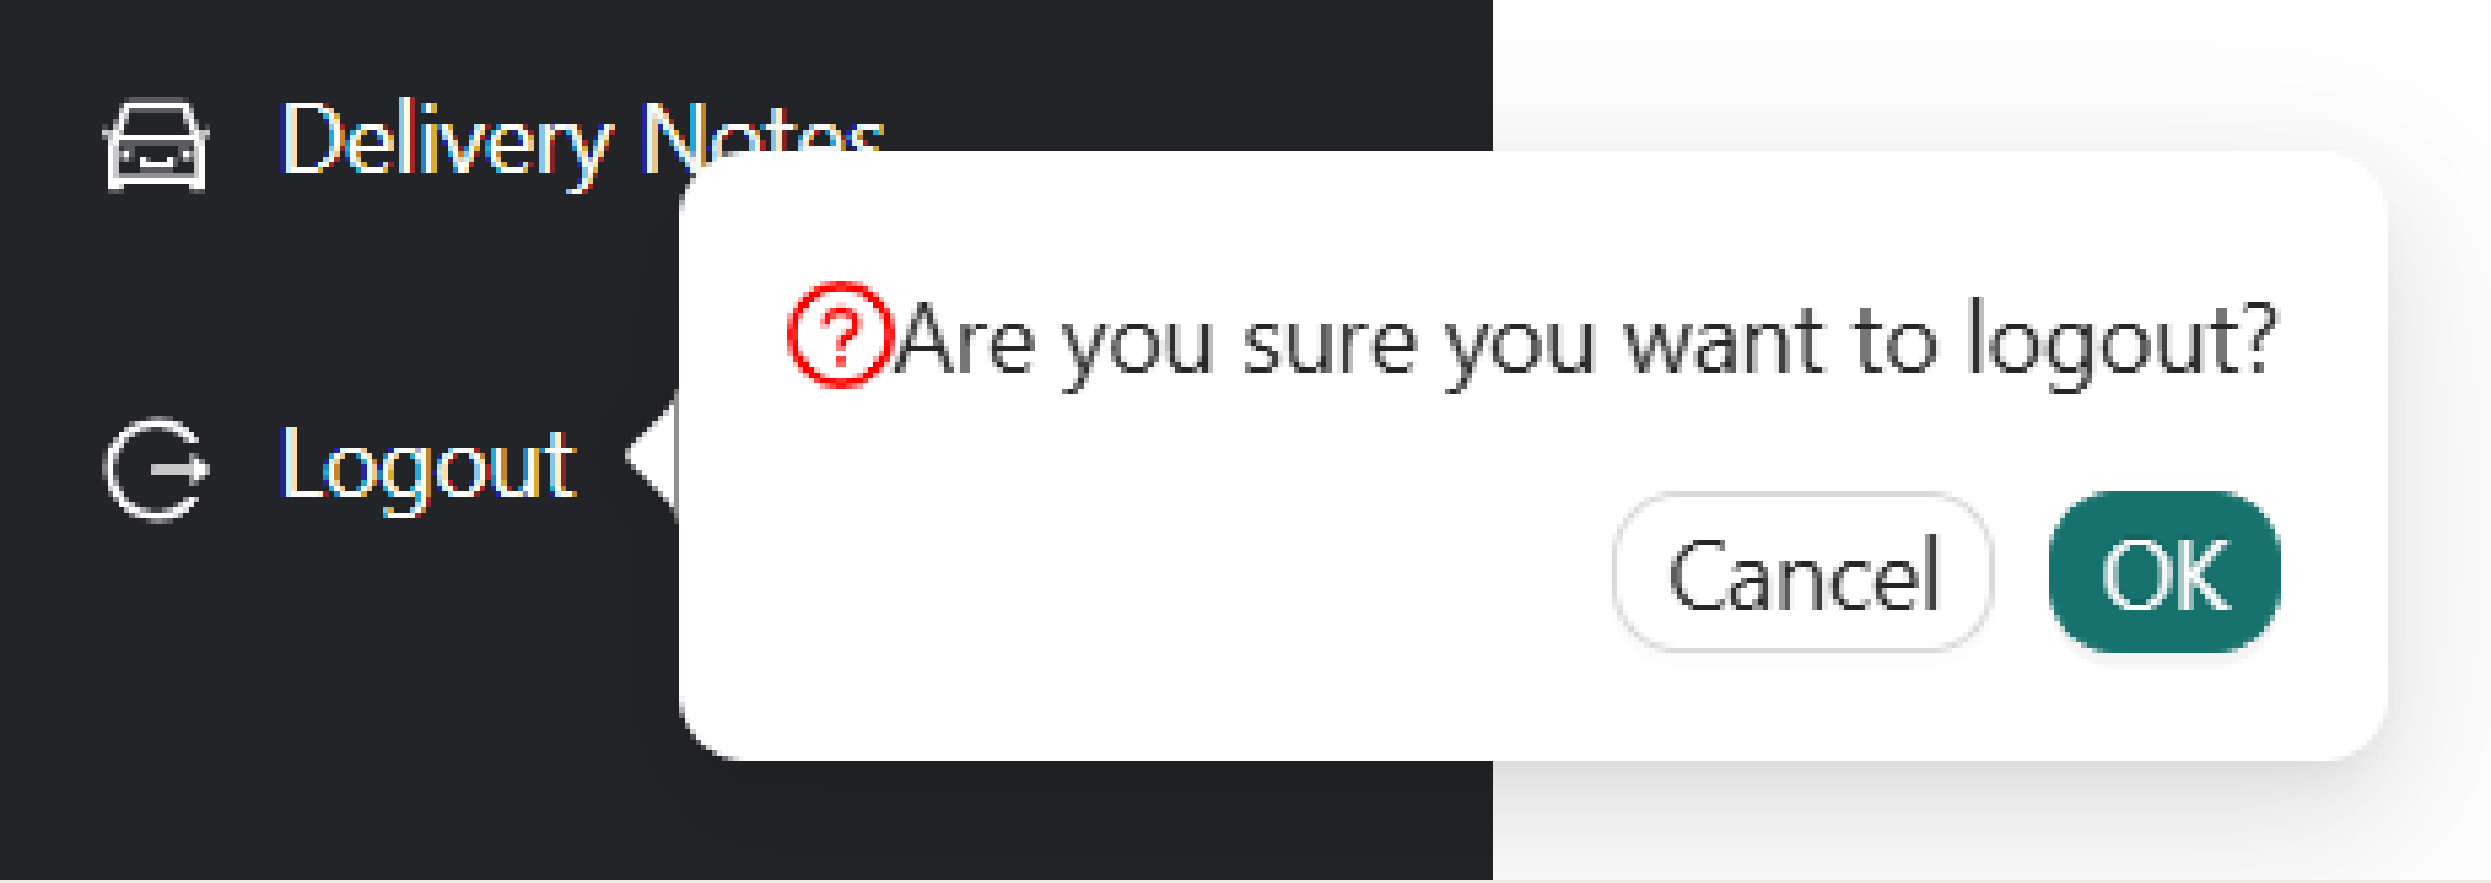

Every Job Card will have a Delivery Note to accompany it once the Job is complete, the list of delivery notes are displayed in a detailed and concise list.

By clicking on the “Create Delivery Note +” button from the Delivery Notes List page, you will be able to add a Delivery Note to an existing Job Card. Simply specify the Job Card ID, the contents of the note, then click the “Create” button to do so.

In the event of needing to delete a Delivery Note, clicking the “Delete” button on a specific Delivery Note will handle that task.

If you wish to log out of the system, simply click the “Logout” button in the navigation bar then click the “OK” button to confirm, otherwise click the “Cancel” button to remain logged into the Vault Vision System.
